CommonLook Remediation Services Does The Heavy Lifting

CommonLook's Remediation Services make it simple to ensure your PDF and other documents are compliant. By providing accessible documents you are fulfilling the need to meet mandatory accessibility requirements and provide those with visual impairments and other disabilities equal access to information and opportunities.

By being compliant with current accessibility standards you are also protecting your organization from costly and embarrassing litigation.

Accessibility is not just **good will**,
it's **good business**.

CommonLook Remediation Services Includes:

- Use CommonLook PDF on each document to identify and fix accessibility issues.
- Identify and correctly handle scanned documents (OCR, complete OCR correction, and tagging).
- Review and correct the logical structure of the file, including verification of tabbing order.
- Check and correct tables, including proper tagging of complex tables using Linked Headers or logically redesigning the tables if necessary without changing the physical view.
- Review alternative text, provide if necessary.
- Correctly mark Heading, Lists, References, Footnotes, Endnotes and Tables of Contents.
- Review Scripts; verify and fix inaccessible script functionality (for example functionality dependent on the mouse).
- Review form elements. Fix known accessibility issues with radio buttons.
- Optionally, convert "Print then Fill" forms to "Fill and Print" forms.
- Properly tag Callouts and other Annotations, including Links.
- Test each document with at least one type of tags-aware assistive technology.
- Ensure the document passes Adobe's Acrobat Accessibility Checker.
- Generate a CommonLook Section 508 or WCAG 2.0 AA conformance certificate.
